1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE CLAIMS

In claim 2, the phrase --needle forming-- has been inserted after the word "plurality" at the end of line 1.

In claim 6, the phrase --wherein said mold member includes a plurality of needle forming recesses,-- has been inserted after "claim 1," in line 1.

In claim 6, line 5, "mm2" has been deleted and replaced with --mm²--.

Art Unit: 1722

In claim 9, the phrase --wherein said mold member includes a plurality of needle forming recesses,-- has been inserted after "claim 8," in line 1.

In claim 14, the phrase --wherein said mold member includes a plurality of needle forming recesses,-- has been inserted after "claim 8," in line 1.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a mold assembly as defined in claims 1, 7, and 8 of the instant application, as is described in the previous Office Action of 14 June 2005. Additional the prior art made of record with this Office Action to Yuzhakov et al. (U.S. Pat. No. 6,256,533) is cited as being pertinent to the instant application. Yuzhakov, however, fails to teach or suggest a silicon mold member to be disposed in a mold recess as recited in the claims. Nor is there any apparent reasons to modify or combine the reference with other prior art to result in such a configuration.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to
